
NON-COMMUNITY HOSPITALS

INTRODUCTION

In addition to the 51 community hospitals in South Dakota, there were 17 non-community hospitals in 2006. Each hospital provided varying degrees of emergency, acute, intensive, skilled nursing or specialty care. All non-community hospitals have the capability of providing acute care, which differentiates them from nursing facilities, which do not have that capability.

RESOURCES

Facilities

Hospitals are categorized as non-community hospitals because of access requirements or the specialized nature of the care they provide. In 2006, South Dakota's 17 non-community hospitals were comprised of two Veteran's Administration hospitals, five Indian Health Services hospitals, and 10 specialized hospitals. Of these hospitals, the only hospitals licensed by the state are the 10 specialized hospitals.

***NOTE:** The number of non-community hospitals that submit their AHA Survey in any given year fluctuates greatly, making it difficult to track the trends in data related to non-community hospitals. Therefore, the data for non-reporting, non-community hospitals was extrapolated in 2002, 2003, 2004, 2005, and 2006 to allow the comparison of trends for non-community hospital resources and utilization statistics. The report notes the instances where the data is extrapolated by bolding the data and shading the area around it. In addition, a note is added below the table to indicate further that the data has been extrapolated.*

NON-COMMUNITY HOSPITALS

Beds

Table 17, below, displays the number of beds per facility for the years 2002 to 2006. From 2005 to 2006, the total non-community hospital beds in South Dakota remained unchanged. Table 18, page 23, compares the number of beds in South Dakota non-community hospitals and community hospitals. During the past five years, the percent of hospital beds that are housed in non-community hospitals has held steady around 22 percent.

NOTE: Dakota Plains Surgical Center in Aberdeen opened in 1998, but has not completed any survey to date.
 Siouxland Surgery Center in Dakota Dunes did not complete the 2006 AHA survey.
 PHS Indian Hospital in Pine Ridge did not complete the 2006 AHA survey.
 Black Hills Surgery Center in Rapid City did not complete the 2006 AHA survey.
 Same Day Surgery Center in Rapid City did not complete the 2006 AHA survey.
 Select Specialty Hospital in Sioux Falls did not complete the 2006 AHA survey.
 Spearfish Surgery Center opened in 2000 but has not completed any survey to date.
 PHS Indian Hospital in Sisseton did not complete the 2006 AHA survey.
 #Memorial Care Unit in Watertown closed in 2003.

NOTE: The areas in the above table that are shaded are non-reporting years for that facility. Therefore, in order to compare the number of beds over a five-year period, the numbers in the shaded area are averages of the data available on that facility.

UTILIZATION

General Trends

Table 19, below, tracks selected utilization statistics for the non-community hospitals from 2002 to 2006. Utilization showed that beds set up and staffed remained the same and staffed and an increase in discharges (see Appendix A for explanation of discharges) and a decrease in inpatient days for 2006.

Table 19
Selected Statistics for South Dakota Non-community Hospitals, 2002-2006

YEAR	BEDS SET UP AND STAFFED	DISCHARGES	INPATIENT DAYS	AVERAGE LENGTH OF STAY
2002	842	20,133	148,839	7.4
2003	825	13,087	153,329	11.7
2004	854	12,505	159,795	12.8
2005	825	12,872	147,106	11.4
2006	825	13,298	143,704	10.8

NOTE: The shaded data in Table 19 are based on extrapolated data.

SOURCE: South Dakota Department of Health; Office of Data, Statistics, and Vital Records.

Discharges

Table 20, page 24, displays the non-community hospital discharges by facility. The five-year high during the period presented occurred in 2002. The substantial decrease in discharges in 2003 is due to clarification of reporting requirements. In 2006, there was an increase in the number of discharges by 426 discharges or 3.3 percent. Table 21, page 24, shows total discharges for community hospitals and non-community hospitals.

NON-COMMUNITY HOSPITALS

Table 23, below, displays inpatient days for South Dakota community and non-community hospitals. In addition, it displays the percent of inpatient days completed by non-community hospitals. The percentage of non-community hospital inpatient days over the last five years has fluctuated from a low of 23.4 percent in 2002 to a high of 25.7 percent in 2003.

Table 23
Inpatient Days by South Dakota Community and Non-community Hospitals, 2002-2006

Inpatient Days	2002	2003	2004	2005	2006
Community Hospital Inpatient Days	486,810	442,845	464,315	446,534	436,080
Non-community Hospital Inpatient Days	148,839	153,329	159,795	147,106	143,704
Total Inpatient Days	635,649	596,174	624,110	593,640	579,784
Non-community as a percent of Total	23.4%	25.7%	25.6%	24.8%	24.8%
